ACTION

From the director of XXX and The Fast and The Furious comes an exhilarating epic blockbuster starring Josh Lucas, Jessica Biel and Academy Award® Winner Jamie Foxx (Best Actor, RAY, 2004). Breathtaking from take-off, it thrusts you in the cockpit, hits Mach 5 and never looks back. Henry, Ben and Kara are hands down the world's best tactical fighter pilots. But a new member joins their team, a state-of-the-art, fully-automated, pilotless, super stealth warplane - inhuman and invincible. But once this stealth goes up it's never coming down, wreaking destruction in seconds across the globe, leaving the team with one last no-fail mission: to stop it - no matter what.

Stone Barrington must trap a ruthless defector in this heart-stopping thriller from fan favorite Stuart Woods.

Stone Barrington is trying to enjoy some downtime at his English retreat when he's unceremoniously sent off to the remote reaches of the UK and into a deadly snare. As it turns out, this is only the first volley by a rival power, one that has its eyes set on disrupting the peace of the nation.

With the help of two brilliant and stunning women, Stone must leverage a new position of power to capture a villain with a lethal agenda. But the closer he comes to nabbing the culprit, the more he realizes there's a bigger plan at work, and a true mastermind who's a force to be reckoned with . . .

There's only one way to overcome a spiritual terrorist.

The war on terror is out of balance. Billions of dollars and cutting-edge weaponry pitted against faceless zealots. Cunning foes who fight dirty. Though inferior in strength, they remain surprisingly deadly.

In spiritual terms, this conflict perfectly illustrates our vulnerability to Satan's attacks. He exploits every advantage to destroy us--and his advantages are considerable. He's a lot smarter than we are, he knows

This book called **Stealth Attack** is ... **an attack**.

Once again – not simply called secretive war but rather termed **stealth war** for a reason.

Stealth

“ Currently invisible. Ends if you deal damage.
— *In-game description*

Stealth, also known as **cloaking** or **invisibility**, is an **effect** which allows the stealthed character to be invisible to enemy players and avoid being detected by hostile **NPCs**.

A stealthed player character will appear as a transparent outline to allies. Hostile **NPCs** will stop **attacking** if their target goes in stealth, although they will not lose their accumulated **aggro** towards the target and the stealthed character won't immediately break away from **combat**. When **thieves** enter stealth, their first **weapon skill** changes to a **Stealth Attack**, which can only be used while they remain in stealth. Characters in stealth cannot be targeted by enemies, but can still be hit by **attacks** and take damage without breaking stealth.

Hitting a foe with an attack breaks stealth for the attacker; if the attack was made out of range, **misses**, was **blocked**, or was **evaded**, they will not break stealth. Abilities that do not deal direct damage (like **Caltrops**) will not break stealth, even though they apply damaging conditions. When a character breaks stealth, they gain the **Revealed** effect which prevents the user from re-entering stealth for several seconds, regardless of the skill used. The Revealed effect is not applied if the stealth ends normally.

Stealth game

From Wikipedia, the free encyclopedia

*Not to be confused with **Stealth (video game)**.*

A **stealth game** is a type of **video game** in which the player primarily uses *stealth* to avoid or overcome antagonists. Games in the **genre** typically allow the player to remain undetected by hiding, sneaking, or using disguises. Some games allow the player to choose between a stealthy approach or directly attacking antagonists, but rewarding the player for greater use of stealth. The genre has employed **espionage**, **counter-terrorism**, and **rogue** themes, with **protagonists** who are **special forces** operatives, spies, **thieves**, **ninjas**, or **assassins**. Some games have also combined stealth elements with other genres, such as **first-person shooters** and **platformers**.

Elements of "stealth" gameplay, by way of avoiding confrontation with enemies, can be attributed to a diverse range of games, including *Pac Man* (1980).^[1] Early **maze games** have been credited with spawning the genre, including *Manbiki Shounen* (1979), *Lupin III* (1980), *Castle Wolfenstein* (1981), *005* (1981) and *Metal Gear* (1987). The genre became a mainstream success in 1998, with *Tenchu: Stealth Assassins*, *Metal Gear Solid*, *Thief: The Dark Project* and later releases, like *Hitman* and *Splinter Cell*.
