## Motion for further Discovery

After finally receiving and reading the Police Reports, I have learned of so much necessary information that was not included in the outrageous arrest warrant. In these Police Reports, it states that on Sept 20, 2018 (3 days home from Europe w/o visiting my apartment to ascertain my belongings) I attempt to get help from The Westport Police. I am described in the Police Report (yet NOT within the Arrest Warrant) as being at the police department looking to have an officer take/hear a complaint. This shows proper behavior and concerns on my end. I left after waiting 1 hour to which no officer came out to assist me. I respectfully ask that the tapes of the duration of my visit/wait/time be turned over/shared.

The police, knowing where I was staying, never visited nor contacted me.

This is very important material for the coming Frank's Hearing given the fact the arresting officer was involved with the failure to field complaint.
